Friday, January 15, 2010

The tenant's buildout of the space features high-gloss-finished hardwood floors, a mixture of pendant and recessed lighting, lofted ceilings, an ADA-compliant bathroom, and a stainless steel sushi bar to support the restaurant's quick and convenient, market-like offerings of kosher pizza, sushi and falafel, as well as other menu items. A warm and bright, lime green and orange color scheme accented with modern, checkered backsplashes and wall tiles fills out the inviting ambience.

The building is located on 36th Street between Fifth and Sixth Avenues. "The area is underserved by eateries, and several hotels are planned for the block, promising strong clientele for Aroma's," said Robert Kaplan who handles leasing for the building owner, **Hidrock Realty**.
